

Chapter 60 Overhead/ Crews

National Interagency Incident Management System (NIIMS) Positions

Overhead Positions listed in NIIMS Wildland and Prescribed Fire Qualification System Guide, PMS 310-1, October 2012, NFES 1414
This document is located at: <http://www.nwcg.gov/pms/docs/docs.htm>.

Incident Qualifications and Certification System (IQCS) Position Codes

The Incident Qualifications and Certification System (IQCS) is an information management system that tracks training and certifications for Wildland Firefighters. For a complete list of all IQCS recognized Position Codes, refer to the following web site: <http://iqcs.nwcg.gov>

Crews and Wildland Fire Modules

Type 1 Interagency Hotshot Crews

(Refer to NMG 60)

RMA Crew Listings (By State)

Start dates indicate the first day for the crew and not necessarily the crew's availability date. Each individual crew will notify dispatch and RMC when crew is available for assignments.

The procedures in the Standards for Interagency Hotshot Crew Operations in regards to crew training will be utilized. This guide can be found at the following web site:
http://www.fs.fed.us/fire/people/hotshots/ihc_stds.pdf

Units are requested to submit a Passenger and Cargo Manifest form to their Dispatch Center when a crew has been assigned to an incident, unless rostered.

The RMA will continue to implement an out-of-area rotation for RMA Type 1 (IHC) crews. Current guidelines are posted on the RMC web page under Crews.

3 **Ordering Considerations for Crews - Items to note in Special Needs (ROSS):**

- 4 • With transportation
- 5 • With tools
- 6 • Double lunched
- 7 • Self-sufficient/purchasing authority
- 8 • Break down capable
- 9 • When ordering Ty2 / Ty2 IA crews, review the ordering considerations.
- 10 • Justification for Ty1 crew

11 **Interagency Wildland Fire Modules (WFM)**

12 The RMA has three Interagency Wildland Fire Modules.

- 13 • The Black Hills Wildland Fire Module (NPS SD-WCP) is located in South Dakota and is dispatched by Northern Great Plains Dispatch Center.
- 14 • The Unaweep Wildland Fire Module (BLM CO-GJD) is located in Grand Junction, Colorado, and is dispatched by the Grand Junction Air Center.
- 15 • The Southern Rockies Wildland Fire Module (Nature Conservancy CO-COI) is located in Loveland, Colorado, and is dispatched by the Ft. Collins Interagency Dispatch Center.

16
17
18
19
20 The core module for mobilization is comprised of one (1) module leader and six (6) module crewmembers. Specific agencies modules may exceed the core module configuration by adding three (3) crewmembers at mobilization. If requested, modules can be configured and mobilized with less than six (6) crewmembers, but only after the ordering unit negotiates this with the sending unit. Any negotiated configurations must be identified within the original ROSS request.

29 Wildland Fire Module types are:

30 Type 1
31 Type 2

32
33 Wildland Fire Modules (WFM) will be ordered by type. Two types exist for National or Interagency assignments.

35 **Wildland Fire Module Ordering Considerations: Items to note in Special Needs:**

- 36 • Vehicles, ATV's needed
- 37 • Current Certification (Type 1 or 2)

Non-Standard Overhead Groups

(Refer to NMG 60)

Communications Coordinator (COMC)

(Refer to NMG 60)

Flight Manager

(Refer to NMG 60)

- A Flight Manager will be designated for point to point flights transporting personnel.
- The Flight Manager is a government employee who is responsible for coordinating, managing, and supervising flight operations.
- The Flight Manager is not required to be on board for most flights.
- For those flights that have multiple legs or are complex in nature, a Flight Manager should attend the entire flight.
- The Flight Manager will meet the qualification standard for the level of mission assigned as set forth in the Interagency Aviation Training Guide (IAT).
- The Flight Manager is supervised by the Sending Unit dispatcher until the destination is reached.

The Flight Manager duties are:

- Brief the traveling personnel, providing an overview of travel purpose and final destination, route of travel, intermediate stops, if applicable and estimated time(s) of arrival (ETAs).
- Ensure the passenger manifest is accurate and contains the correct names and weights of the passengers. Note: The pilot is ultimately responsible for ensuring correct weights, balance, and power computations. The Flight Manager will provide one copy of the manifest to the pilot-in-command and ensure that additional copies are available for the receiving unit and the sending dispatcher.
- Ensure proper Resource Tracking procedures are met.
 - The RMC Flight Following number is 1-800-494-2073.
 - The NIC Flight Following number is 1-800-994-6312.
- Ensure a passenger aircraft safety briefing is conducted.
- Maintain a current list of telephone numbers for the sending and receiving units. The Flight Manager will contact the sending unit dispatch when the flight plan has deviated more than 30 minutes from the original flight plan.
- Have all personnel within the weight limitations assembled and ready to board in the designated staging area.
- Ensure the pilot and aircraft are currently authorized for the intended mission and the pilot-in-command can verify the aircraft is within weight and balance limitations.
- Responsible for signing the Aircraft Use Report (Form 6500-122, entered in ABS or OAS-23/23E, entered into AMS) for all flights (except for domestic air carriers, airlines and NIFC contract aircraft.)

Incident Management Teams (IMT)

(Refer to NMG 60, RMG 20)

Type 1 Interagency Incident Management Teams

(Refer to NMG 60)

Interagency Incident Management Team Configuration

(Refer to NMG 60)

Interagency Incident Management Teams ordered through NIC will be requested as either a long or short team configuration. Any variation from the standard configuration is at the discretion of the requesting unit. The Deputy Incident Commander position is not mandatory. The Incident Commander and the Deputy Incident Commander positions on IMTs may only be filled by current agency employees. It is recommended that the following positions also be filled by current agency employees: Finance/Admin, Section Chief Type 1 or 2, the Procurement Unit Leader, the Comp/Claims Unit Leader and the Compensation-for-Injury Specialist.

The RMCG has approved the following variation of the long IMT configuration:
 **Instead of a Compensation/Claims Unit Leader, the RMA Type 1 team has substituted a Cost Unit Leader.

NIMO/Type 1 or 2 Short Team Members (Total of 9 positions)

ICT1/ICT2	Incident Commander Type 1 or 2
SOF1/SOF2	Safety Officer Type 1 or 2
PIO1/PIO2	Public Information Officer Type 1 or 2
OSC1/OSC2	Operations Section Chief Type 1 or 2 (2 each)
AOBD	Air Operations Section Branch Director
PSC1/PSC2	Planning Section Chief Type 1 or 2
LSC1/LSC2	Logistics Section Chief Type 1 or 2
FSC1/FSC2	Finance/Administration Section Chief Type 1 or 2

NIMO/Type 1 or 2 Long Team Members (17 positions for a Total of 26 with above 9)

DIVS	Division/Group Supervisor* (4 Each)
ASGS	Air Support Group Supervisor
ATGS	Air Tactical Group Supervisor
SITL	Situation Unit Leader
RESL	Resource Unit Leader* (2 Each)
FBAN	Fire Behavior Analyst
COML	Communication Unit Leader
SPUL	Supply Unit Leader
FACL	Facilities Unit Leader
GSUL	Ground Support Unit Leader
TIME	Time Unit Leader
COST**	Cost Unit Leader
PROC	Procurement Unit Leader

Due to the nature of incidents that NIMO teams will be assigned to, team configuration may be negotiated by NMAC, the NIMO Coordinator, NIMO Incident Commander, and the requesting unit, up to the maximum number of positions. To increase personnel capacity and capability, trainees, apprentices, and/or technical specialists may be ordered for any or all positions.

In addition to the twenty-seven (26) positions identified on the Long Team configuration, Interagency IMTs may have a maximum of seventeen (17) positions to be negotiated and concurred on by the Incident Commander and the Agency Administrator from the requesting unit. As well, they may bring an additional six (6) trainee positions and six (6) S420/520 command general staff mentorees. These positions are identified by the Interagency IMTs and not by the receiving unit. Unless notified otherwise, these trainees will be mobilized for incidents on Federal lands.

This equals 55 team positions altogether.

Team Ordering considerations - Add to Special Needs as appropriate

- What is the Requesting Unit's "Preferred Transportation" for IMT? Fly or Drive? What is the closest jetport if flying?
- When is the initial team briefing to be held? Where is it to be held? Get the address.
- Are "Rental Cars, POVs, Cellphones, Laptops" authorized? If yes, for whom?
- Is the "Date and Time needed" negotiable?
- Are ADs authorized? Are there any limitations? Example: California will not allow incoming teams to have ADs on the command and general staff.
- Trainees:
 - How many are authorized to accompany team?
 - Are trainees authorized for miscellaneous Overhead?
- Are there special conditions? Example: Team member meeting up with the team several days later.
- S-420/520 Mentoring Program. Has the IC checked with the host agency about this? Coordinate the ordering details with the affected personnel.
- Short or long team if request is for out of Rocky Basin Area.

RMA Incident Management Team Numbers & Configuration

RMA and Eastern Great Basin Area (Rocky Basin) Type 1 Incident Management Teams have joined together for inter-area utilization and National rotation. There are a total of 3 Type 1 Interagency Incident Management Teams in the Rocky Basin. RMA hosts one of these.

RMA sponsors 3 Type 2 Overhead Teams (A, B & C).

RMA IMTs will be dispatched in the Long Team Configuration, unless otherwise specified by the requesting unit. See RMG 20 for additional IMT information.

June 26 – July 9*	July 10 – July 23	
July 24 – Aug 6	Aug 7 – Aug 20	
Aug 21 – Sept 3*	Sept 4 – Sept 17	
Sept 18 – Oct 1	Oct 2 – Oct 15*	

***Denotes Holidays**

The on call period will run for two weeks commencing at 0001 on Wednesday of the first week, and will terminate on Tuesday of the second week at 2400.

Teams are mobilized on a first, second, or third team out basis. Once a team is mobilized or if a team is unavailable for dispatch, the next team in order of rotation will assume their position until they are mobilized or the rotation period ends. If a team is released to their home unit, has time left in the rotation period and are available, they will enter the rotation in the last position.

In an effort to maintain currency, functionality, and viability of the RMA Type 2 teams, the regional rotation will be followed until such time as there becomes a disparity of two assignments between Type 2 teams. The team(s) without an assignment will be given the opportunity for an assignment prior to the team on-call. In-Zone assignments for Team C count in their total number of assignments, however they will continue to be the first team assigned within the GPC zone.

Team C will be available year-round in the GPC Zone and is the first team assigned to Type 2 incidents within the GPC Zone.

Rocky Mountain Area Trainee Prioritization Program

Purpose: The Rocky Mountain Trainee Prioritization Program has been established as a uniform process to identify and promote employees in completing wildland fire management experience requirements. These requirements are needed to achieve qualifications, agency positions and to support succession planning for Incident Management Teams.

General Information:

- All trainees will be listed and prioritized according to ICS position by each dispatch zone. The Geographic Area Training Representative (GATR) will use the zone priorities to develop a combined trainee priority list for the Rocky Mountain Area.
- The Rocky Mountain Coordination Center (RMC) will utilize the combined trainee priority list for dispatching all trainees within and outside the Rocky Mountain Area. Exceptions from use should be rare; cases such as agency only requests, trainee not available, etc.
- Trainee priorities will be determined through a scoring process based on:
 - Position Job Requirement (example: IFPM/FSFPM and any other agency's similar program in the Rocky Mountain Area.
 - Position Task Book (PTB) % completion
 - Months until PTB expiration
 - IMT application in a trainee position
 - Other factors:
 - Qualification is needed to fill critical incident management capacity shortage at the local unit.
 - Qualification is required for next higher position in home unit organization chart.
 - Personal development
 - Lost currency assignment. Trainee lost qualification currency and needs trainee assignment to be re-certified.

Procedure:

- The GATR (working with the RM Training Committee) will develop the Rocky Mountain Area combined trainee priority list and submit it to RMC and the RM Operations Committee for use in IMT selections by **January 15** each year.
- The coordination center will use the list to the greatest extent possible for filling all trainee orders received, including any special trainee programs established in the Rocky Mountain Area.
- Once a selected trainee is recommended for certification, it is up to the IMT IC's zone training officer or the trainee's local unit to notify the GATR of the vacancy created and request additional priority trainees, by position, from the RM priority trainee list.
- The RMA trainee prioritization list will be for positions at or above the unit leader or equivalent qualification for the 2013 fire season.
- When a trainee completes an assignment, their information must be updated in IQCS and sent to the GATR to reflect tasks completed (% of completion in the PTB). **Once a trainee has been recommended for certification, they will be taken off the trainee priority list.**

- Trainees and their local unit will status trainees as “Local Only” in ROSS, when expecting a name request as a priority trainee. (The GATR has received a request for a priority trainee and confirms that the trainee is available.)
- Trainees who are available but not expecting a name request should status themselves as appropriate, according to their local dispatch center protocols; local, GACC or National.
- The GATR will update and make the trainee priority list available bi-weekly.
- Incident Training Specialists will contact the RMC/GATR to fill trainee positions on incidents.

RM/GB Buying Team Alternates**Rocky Basin Buying Team Coordinator**

If any National Interagency or Type 2 Buying Team Leader is unavailable, please contact the Rocky Basin Buying Team Coordinator for a substitute. The Buying Team Coordinator is:

Sierra Hellstrom
R4 Fire Contracting
Ogden, UT
801-625-5764 voice
801-625-5365 fax
srhellstrom@fs.fed.us

If a substitute leader is not available, the entire team is unavailable. The next team in rotation will move up to on-call status.

Alternate Buying Team Members can go out as individual overhead or with Buying Teams.

2013 Buying Team Alternate Members and Trainees

The Buying Team Coordinator will maintain a list of in-GACC qualified BUYM alternates, as well as a prioritized list of BUYM (T) Trainees from whom BUYLs may select needed resources for their Buying Team when on call in the rotation. Team assignments from the list are for that call-out period only. BUYL will notify GACC of alternates (substitutes) and trainees for the call-out period.
